The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength in building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

## A COMMON ERROR

The Same Mistake is Made by Many Titusville People

It's a common error  
 To plaster the aching back,  
 To rub with liniments rheumatic joints.

When the trouble comes from the kidneys.  
 Doan's Kidney Pills cure all kidney ills.

Lee Rogers, carpenter, First st., Sanford, Fla., says: "Last spring I had a severe attack of lumbago and was unable to get around for several days. My back was so lame that it was difficult for me to dress myself mornings. I used plasters and rubbed myself with liniments but could get no permanent relief. A friend finally advised me to try Doan's Kidney Pills, which I did. In a few days after beginning their use my back felt stronger, and by the time I had finished the contents of one box the lameness and pain in my back had disappeared. I am now able to work every day without the least inconvenience."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## DENTALGRAMS

## Children's Teeth

75 per cent of the children in this community are in need of dental work.

Facial deformities, pain, half nourished bodies, bad breath and allied ailments are the result of neglect.

Mr. and Mrs. Parent, it's your duty to see that your children have a fair start in life. See to their teeth.

## Care of the Teeth

A visit to the dentist at least twice a year is the best possible care you can give your teeth, try this.

## Replacing Lost Teeth

There is no excuse for any man or woman to be without teeth.

Elegant clothes may make you appear like what you want people to think you are, but the care you bestow upon your teeth indicates what you really are. What right have you, anyway, to approach people in business or socially with a mouth full of teeth so badly decayed that your friends are compelled to step back when you begin to speak. Haven't you noticed them do it?

## Artificial Crowns

Can be so nicely adapted that detection is impossible. When a tooth is passed filling have a porcelain crown fitted to the old root, making it useful as ever. Everyone admires nice looking teeth. The knowledge that yours are well cared for will be a great satisfaction to you.

## Artificial Sets of Teeth

When your old friends are gone, either through neglect or use, get the kind that do not ache, that do not have to be filled, crowned or extracted. Get good ones, get the best that can be had. Even then they will not be any too good.

Do not get so "dabbinged" stingy that you try to save a little money on a set of teeth, save it on a coffin, but buy teeth that will make people sit up and admire you.

## Teeth Without Plates

When you have teeth put in without plates you are beginning to show signs of living in the 20th century. Teeth without plates offer you all the blessings and advantages of natural teeth. They are immovable, self cleansing, artistic and in every way represent up-to-date dentistry.

But get the new sanitary bridge as we make it.

## Extracting Teeth

What a horrible thing it is to have part of one's anatomy taken hold of, shook, pulled and twisted until something gave way.

All that is done away with. Today extracting teeth is easy. It can even be performed while you sleep. If you do not want to pay for a lodging you can have a tooth extracted by the use of a South American anaesthetic, which makes it entirely painless. Even the children say "I never felt it." Try it next time.

## Prices

Some of you people who think you can buy things in Europe, Asia or Africa cheaper than you can at home and are perfectly willing to let students and inexperienced men work on your teeth, just so you get it for 30 cents, should take a look at Chicago prices. I have them in my office, you may see them, they are 25 per cent higher than what I charge you. I could not stay in this town a week if I did the kind of work you get in that kind of an office. Your home dentist spends \$2,000 in the town every year. Some one is getting some of it all the time, next time it may be you.

Fillings for which I charge \$1.00 are \$1.50 and \$2.00 in the cheap Chicago offices.

Dental work is the cheapest thing in Titusville.

## Another Thing Worth Considering

When you have your work done at home you have someone interested in your teeth, someone who feels the responsibility of their care and you will be surprised and should be pleased with the number of little courtesies your dentist will extend to you from time to time, that, also, should be appreciated.

## The Kind of Dentist You Patronize is Another Thing

26 years of continual work on bad teeth ought to teach a man something. You should feel reasonably secure that you are going to get about the best there is if you place your teeth in my care.

I have let several hundred dollars worth of work go elsewhere because I am determined to do what experience has taught me is best in a given case or not at all. My advice is sometimes worth more than the work.
